

EIP

EIP recommended in Chambers & Partners 2012

EIP would like to thank its clients after the firm received a highly favourable recommendation in the 2012 Chambers & Partners guide to leading law firms and practitioners.

EIP achieved a high level ranking in Chambers & Partners , which is compiled entirely on personal recommendations from key clients, and is considered the most highly respected of all guides to legal service providers.

Chambers said: "This dynamic firm has a reputation as being one of the most forward-looking in the market, with a commercial outlook and a commitment to client service".

In addition, Partners Jerome Spaargaren, head of the EIP Digital practice group, and Heather McCann, received top-tier recommendations as leading practitioners. It is the second consecutive year Heather McCann has been cited as a key individual within the firm.

Clients described Jerome as renowned for his "keen intellect", while clients said Heather is "reliable, clever and good at thinking round problems".

EIP is proud to see the key recent developments in the firm, including the six new practice groups which launched last year, were noted by researchers. As always, such a high profile accolade which is based on client opinion is highly valued by the firm, and EIP would like to thank all its clients for their considered praise.

With the launch of the IP litigation practice, EIP Legal, and further practice developments to come, EIP is looking forward to building on its success over the next year and further

strengthening client relationships.
